IBM WATSON IOT PLATFORM

Step 1:

Step 2
Step 3:

The screenshot shows the 'Add Device' wizard in the IBM Watson IoT Platform. The wizard has four steps: Identity, Device Information, Security, and Summary. The 'Device Information' step is currently active. The instructions state: 'Select a device type for the device that you are adding and give the device a unique ID.' The 'Device Type' field is set to 'NodeMCU' and the 'Device ID' field is set to '12345'. At the bottom right, there are 'Cancel' and 'Next' buttons. Below the wizard, the 'Browse Devices' section is partially visible. The top navigation bar includes 'Browse', 'Action', 'Device Types', and 'Interfaces'. The left sidebar contains various icons for navigation. The bottom status bar shows the system clock as 4:24 PM on 11/6/2022.

Step 4:
Step 5:

The screenshot shows the 'Add Device' wizard in the IBM Watson IoT Platform, now at the 'Summary' step. The previous steps (Identity, Device Information, and Security) are marked as completed with checkmarks. The instructions state: 'Verify that the following information is correct then select Finish.' The summary information displayed is: Device Type: NodeMCU, Device ID: 12345, and Security Token: 87654321. A 'View Metadata' button is located below the device information. At the bottom right, there are 'Back' and 'Finish' buttons. The top navigation bar and left sidebar are consistent with the previous screenshot. The bottom status bar shows the system clock as 4:26 PM on 11/6/2022.

Device Credentials

You registered your device to the organization. Add these credentials to the device to connect it to the platform. After the device is connected, you can navigate to view connection and event details.

Organization ID	clk2H0
Device Type	NodeMCU
Device ID	12345
Authentication Method	use-token-auth
Authentication Token	87654321

⚠

Authentication tokens are non-recoverable. If you misplace this token, you will need to re-register the device to generate a new authentication token.
